Providers Must Maintain and Update Taxonomy Code Information

Blue Cross and Blue Shield of Texas (BCBSTX) is sharing information from Texas Medicaid and Healthcare Partnership (TMHP)

Oct. 28, 2021

Reminder

Providers must maintain and update their [Texas Medicaid & Healthcare Partnership \(TMHP\)](#) taxonomy code information with the information they provide to dental maintenance organizations (DMOs) or managed care organizations (MCOs). During enrollment, the available taxonomy code selections are auto-populated according to the provider type and specialty associated with the Texas Provider Identifier (TPI) entered on the application.

Action Now

Providers are encouraged to update their taxonomy codes online through the **Provider Information Management System (PIMS)** to align with contracted DMO or MCO programs. As these taxonomy code options may not match the taxonomy code listed in the confirmation letter that providers have received from the National Plan and Enumeration System (NPPES) and included for MCO or DMO credentialing.

Questions

For more information, call the TMHP Contact Center at **1-800-925-9126** or the TMHP- Children with Special Health Care Needs (CSHCN) Services Program Contact Center at **1-800-568-2413**.
